

Trading Update - Full Year 2022 Preliminary Results

Strong Q4 results led to an increase in EBITDA profitability for Full Year 2022

Brussels, 25 January 2023, 08:30 CET - Titan Cement International SA (Euronext Brussels, ATHEX and Euronext Paris, TITC) provides today a trading update ahead of the Group's Full-Year results on March 22nd, 2023, as the preliminary results for EBITDA for Q4 2022 are significantly higher compared to market consensus.

The fourth quarter of 2022 has been very strong for Titan Cement Group. Sales activity and revenues remained robust while energy costs, as a result of cost-saving actions and market conditions, declined. Preliminary EBITDA for Q4 is €98 million (about €42 million higher than Q4 2021) as significant improvement in profitability was recorded mainly in the US and Southeast Europe, marking the closing of a year with high financial performance for the Group.

Based on current preliminary unaudited consolidated financials, the Group expects sales for Full Year 2022 to exceed €2,250 million and EBITDA to be above €330 million (compared to €275 million in 2021). The Group's preliminarily net debt at the end of 2022 is below €800 million, compared to €912 million in September 2022, and the Net Debt to EBITDA leverage ratio is 2.4x.

As already announced earlier today, a new buy-back program of €10 million was decided by the Board of Directors on January 17th, 2023. The new program will begin following the end of the current running program, on or around March 1st, 2023, and will be up to €10 million with a duration of up to ten months.

Titan Cement Group will report its audited financial figures for the Full Year 2022 on March 22nd, 2023, while a conference call is planned for the same day, followed by a Q&A session (dial-in details will be available on the website in due course).
